S. BUSINESS OUTLOOK IS GOOD BLIZZARD SWEEPS NEW YORK

Better Prospects For New Year Are Seen At Capital

Department of Commerce Wireless Flash Gives Out Encouraging Report in Nation's Business During Past Year-Farmers' Lot Improves.

(Associated Press Leased Wire.)
WASHINGTON, Dec. 29.—Stock laking of the nation's domestic business for the last year gives a 'feeling of satisfaction as to the progress made the Department of Commerce declared today in an end of the year statement and from today's position it added there are no serious obstacles in sight which should hinder further advances' in the early New Year. Optimism oorn of the accomplishments of the past month which many government officials regard as a remarkable strengthening of the economic fab-ric is evident in the statistics and details of the statement which noted that the production of manufactured commodities aeraged 50 per cent. larger than in 1921. The farmer received about 17 per cent, more for his products than in 1921 and the total value of agricultural products was worth a greater sum than was that of a year ago. 'The unsettled conditions in foreign countries particularly in Europe, however, the statement says, "are still depressing our trade and to some extent have no doubt set the ecale of agricultural prices below the level of other commodities but within he past two months this condition has been relieved." While dealing only briefly with foreign trade the review says that United States exports have dropped 16 per cent. compared with last year, but the comparison was on a basis of 11 months and in addition represented a lonmb climb from a poor start according to offi-cials. Imports to September 22 when the new tariff became effective was above last year and indications are it was stated unofficially are that the year's total may exceed last year's important was small margin.

Hospital Ambulances Kept Busy and All Institutions Are Crowded - Blizzard Rages All Night.

(Associated Press Leased Wire.) NEW YORK, Dec. 29.—Thousands of volunteer snow handlers were called today to help dig New York out of its first big snowstorm of the seasontemperature became overnight an icy gale which threatened to paralyze all transportation.

The storm took its toll of hundreds of injured. From early last evening until daybreak ambulances were bringing in on stretchers people with broken arms and legs or cracked skulls who had fallen on ice-covered streets. Most hospitals were crowded and the problem of caring for new arrivals was increasingly grave as the list of injured mounted.

At least two persons are reported to have been killed in falls on thorough-fares. Thousands of dollars of damage were believed to have been sustained in the harbor, numerous craft being washed ashore. On the water-front the damage to buildings was.

A Fund of Information That You Should Have

ISRAELI, who for six years was prime minister of England, said: "It has been my observation that the most successful man in any undertaking is the man who has the most information."

It doesn't require any particular information just to go out and buy something. But to buy the best of that something at a price that is satisfactory to you that is a successful purchase. And to make successful purchases you must have information.

Advertising gives you just that kind of information. It tells you where to go in order to get the best of anything you want at a fair price.

That is why it is a paying proposition for the man or woman who handles a pocketbook to study the advertisements in this newspaper-regularly-every day.

To those who use it properly, newspaper advertising is a source of economy and satisfaction that never runs dry. It is a watch-dog of dollars---a guarantee of satisfaction.

If you would learn the facts about the things you need to make you comfortable and happy

PARIS. Dec. 28 .- The work of hariessing the water power of France is naking progress so much faster than he work of settleing reparations ques-tions, including coal deliveries by Germany, that some optimists believe the sountry will be beyond all need of toal fro moutside before the states-

men finish their parleys.
France is supposed to have nine million horse natural water power. Five hundred thousand horse power had been put to use before the war: and ocen put to use octore the war: an equal amount was installed during hostilities (three hundred thousand have been added since the armistice and two hundred thousand more soon will be in use, making a total of a million and a half, equal to half the total stationary stema power used in France in 1913.

The plans of the Public works Department, as explained to The Assopartment, as explained to The Asso-clated Press, provide for the utiliza-tion of approximately four million horse power within five years. The realization of this project will not only make France independent of foreign markets for coal, but will go a long way toward making good the big deficits in the operation of French rail-roads, which will largely substitute clectricity for coal when the current is available. The French railroads paid 184,900,000 francs for coal in 1913, they paid 2,145,000,000 francs for about the same quantity of coul in 1920; the difference of approxi-mately 2.000,000,000 francs was just about equal to the deficit for 1920. The biggest individual job of this

kind, the damning of the river Rhone kind, the damning of the Swiss frontier, at Genissiat, near the Swiss frontier, at Genissiat, an average of 750,000 io furnish an average of nurse power at all seasons, is tempotarily held up pending agreement beween the state, the department of Sa-cole, and the communes interested. Other work is continuing regularly however, all along the French Aips, to eatch light. He's trying to deter-and this in spite of the high costs, mine light's speed so it may be uti-tenkened by experts of the Public lized in man's conquest of universal Works Ministry at four and a half energies. times the pre-war cost.

FUNERAL OF P. A. DIXON TODAY

*grvices of Dr. P. A. Dixon, who successived Wednesday night in injuries received when a freight elevator descended on him while in his cast in a local garage, will be conducted tomorrow at 2:30 o'clock in the Calvary Baptist Church by the pastor, Rev. Carl S. Owens, who will be assisted by Rev. J. F. Vines, pastor of the First Baptist Church. Interment will be made in Evergreen cem-

Members of the class Dr. Dixion taught in the Calvary Eaptist Sunday school for fourteen years will got as active pall bearers while the het of henorary pall hearers is made up of deacens of the church and members of his Sunday school class.

Killing Child

Berlin Paradise For Speculators

BERLIN, Jan. 28 .- Nominally, Berlin is capital of the German republic. Really it is capital of all speculators

Don't waste sympathy on the Russian exiles. They are not having one-tenth so rotten a time as the unfortu-nate millions who can't get away from

Russians in Berlin are of all kinds of political beliefs. There are Mon-archists who ran away after Kerensky got on top, Republicans who ran away after Kerensky fell, and Bolshe-viks who are here doing the business

of the Soviets. The Germans are making every effort to cultivate close relations with the Soviet government and, at the same time, with he exiled Russians. In oher words, no matter what hap-pens, Germany wants the Russian market when Russians are able to pay for their needs.

That is one of the reasons why Count Brockdorff-Rantzau, an aristoerat, but one of Germany's eleverest diplomats, has been sent to Moscow to represent the German republic. I want to stress the point that the

people one sees here this winter are no here as the Americans were here last summer. The Americans were spending their money on pleasure trips. The people now are here to mark is their prosperity.

Bring foreign money and converting it into marks, these strangers are speculating in marks, speculating on the Bourse, speculating in German stocks,

bonds and securities. In many notations they are making permanent investments in the stocks of German corporations which are bound to prosper when Germany gets upon her feet. With foreigners buying their real estate, speculating in their money and stocks, purchasing their jewelry and living fat at their hotels, what is the

in bitterness.

The only difference I see between the treatment of a German and an American is that the American pays two or three times as much as a Gerter.

The only difference I see between dead are:

Professor W. A. Chepman, 48, superior of the Somerset schools:

J. Glinn Harwood, 22, oil field work-two or three times as much as a Gerter.

As a result of the killing. A. O. man for anything he buys.

But a foreigner goes up against Halliburton, proprietor of a soft this in every country where prices drink stand at Somerset was taken

rency is depased.

I never saw any active hostility to
Americans. An educated German

BAGGETT HAS A BAGFUL OF LAWS FOR N. CAROLINA

LLINGTON, N. C., Dec. 28.—Leg-ladon designed to create the office of state. highway traffic commissioner to control freight and bus lines; to releve congestion of superior court caland are, and to equalize school taxes throughout North Carolina will be sponsored by Senator J. R. Baggett, of the Twelfth district, in addition to his anti-Ku Klux Klan measure, he

announced tonight.

"I am studying and making plans,"
said the senator," to introduce a bill
to create a highway traffic commissioners, or a commissioner of motor
tehicles. This measure would provide for the control of freight and bus lines established on the state highways and regulate the speed and equipment of motor vehicles used for hire. It also would regulate schedules and provide for a reasonable compensation to the state for the use of the highways by those who underake to establish commercial lines.

"It is my opinion that with practi-sally six thousand miles of state highways constructed and under construc-tion and maintenance, that these roads can be made to be of great ser-vice to the state and people living along the line of these, if we establish a commissioner of highway traffic to protect the man who goes into public service as a common carrier on these highways, and at the same time pro-tect the public by having him pay so much per ton per mile and also requiring him to give bond for the maintenance of his schedule and equipment and for damages that he may cause to other people or property through

hegligence.
"This will bring into the operation of these roads a number of well-equipped bus lines and

carriers that will be as service and to the people living along the living as the railroads are to people residing along their routes.

"There is no reason why these high-ways should not furnish to the farm-ers a means of transporting vegetables, poultry, eggs and dairy products to markets as efficiently as the paircoads now carry them. But in order to make this dependable, the rafe for handling these products, the schedules and equipment and operators must be under public control in practically the same manner as he railroads are at

"I shall support a proposition, or introduce a bill, to create some method, either by judicial arrangements by ineither by judicial arrangements by in-creasing the judges or segregating our eriminal judges from our civil jurists, and creating circuits for criminal courts, to relieve the congestion of our calendars. I would do away with juvenile judges and let the superior; court criminal judges handle all crim-inal cases. Under this plan, the state. inal cases. Under this plan, the state would provide an industrial school connected with a farm where the boys and girls of each circuit could be sent and cared for under the management of a good man, who would be under the direction of the judge of the cir-

This would make our juvenile criminals responsible to the judge and at the same time placed under his care in an institution under his direction until such time as he could have an opportunity to study through the welfare officers and superinendent of the school and farm and determine the best course to follow in each case. If an inmate could be improved, propsteps in that direction would be steps in that direction would find that Queen Silver, above, a transaved, then he would have the right to pass such experts. The girls is an outh

in keeping with the crime. "I shall support any legislation look-ing t othe equalization of our school tax throughout the state for state schools." he continued. "It occurs to me that we must arrive at some point as near as possible where the taxes for chool purpoes will fall on all property of the state equally, and the burdens upon the people, regardless of what county they live in, will be as nar he same as possible.

nar ne same as possible.

"I am in favor of going forward with our state highway building program and providing the necessary funds for the work to be carried out in accordance with the covervative estimates of he highway commission." estimates of he highway commission. We canno stop this work in the middle of the stream; we must go forward and complete it," he said.

OFFICERS ON WAY FROM WHISKY RAID FIRED ON

STEVENS POINTS, Wis., Dec. 28.-Resentment at prohibition enforce-ment in central Wisconsin broke into epen violence for the second time Y., fourth oldest college in the within 24 hours, when an unidentifled assailant fired upon an automobile containing deputy sheriffs and Florence Foiger, who is along gr. The attack on the party, which was a state dry agent today

returning from a series of liquor raids, is attributed by officials to the same motive that prompted the moti outrage at Marshfield vesterday when James R. Chapman, chairman of the board of supervisors of Wood county, was mangled and his wife killed by an infernal machine sent through the mails—namely revenge by moon-chiners. The bullet came crushing through the car door, missed striking Manuel Berry, a deputy sheriff in the head by but two inches. All search for the assailant proved fruit-

Raids made by the party were lathe southwestern part of Portage, county, near the district from which the Marshfield bomb is suspected by efficials to have originally come

Russian State Is Very Poor

(BY F. A. MCKENZIE)
MOSCOW, Dec. 28—The impression received from reports made by the department heads of the state to the All-Russian Congress is one of apstatement declared that between January and September this year the national revenue from inxation was equivalent to 14 cents per head of the population. He declared that it was impossible to present a budget. but recommended drastic but gradual changes in the system of taxation. Taxation now, yields only onetwentieth as much as h did before

Commissar Lunarchazsky gave means with which to keep the schools meeting January 2. going and pay the teachers. Last year, he said, there were 82,397 public schools with 6,860,900 pupils. In October, this year, there were only 55,000 schools with 4,750,000 pupils. The number of schools now is actually less than it was before the war, although the number of pupils have increased. M. Lunacharsky drew a tragic picture of the men and women teachers, many of whom have been reduced to beggary and are dying prematurely from want. Others, terribly ill from shortage of food, have been driven to sulcide.

In view of the salaries paid to teachers, said the commissar, it was not astonishing that they left their schools in masses. He pointed out that taking 100 as the minimum for existence, the rates actually received were: woodworkers, 81 per cent; paper-makers, 61 per cent; sugar workers, 66 per cent; employes in chemical industry, 47 per cent; eniployes in the metal industries, 46 per cent, and teachers, 12 per cent.

MYATT WILL .

American League club will announce the addition of Myatt, catcher of the Milwaukes club, to its playing staff shortly after January 1. Cleveland, however, is not going to get Myatt

more crack pitcher." is the way Mc Graw views the outlook.

American Association managers believe firmly that Myatt will make good in the American League. He batted like a wild man in 1927 with an average well up toward .350. If he does as well as the men who have watched him believe be will, the Cleveland club with Steve O'Neill and the newcomer will be fortifed with a gouble-barrelled catching department that can hit more often and further and more powerfully than any pair of catchers now in baselail.

The critics said Scott had great graphs of catchers now in baselail.

The critics said Scott had great European featherweight bosing title.

ment that can hit more often and further and more powerfully unan further and more powerfully unan pair of catchers now in baseball captivity.

Misatt is the player who was "thrown in" in a trade with Milwaukee but at that time Myatt had not thrown out as many runners for Uonnie as he has since for Borchert.

A lot of old National Leugue players out on the Facific coast think that if Cincinnati has been able to get Mitchell, the San Francisco pitcher, they have a man who will make a winner in the majors and that he will do as well with the Reds as he did on the coast in 1922. If that is the case Cincinnati more than every appears to be the team that will chalthe case Cincinnati more than ever appears to be the team that will challenge the Giants at the start.

Evidently John J. McGraw feels just that way about it as he is in the market for pitchers.

Princeton Won JURY PROBE OF **POLLARD CASE** Because Team Had Been Trained

BOSTON, Dec. 28-Princeton defeated Harvard at football this year because the Tiger team was taught to anticipate the Crimson backfield moves. Herbert Treat, Princeton tacmoves. Herbert Treat. Princeton tac- on the night of December 11, has Church in Petrograd. M. Zaitzev, klo. said in an interview published been postponed until January 4, it chief of the administration commishere today. The Tiger's victory over WILL FILU IN AS here today. The Tiger's victory over Chicago made possible by "Howdy" Gray's run for a touchdown he said,

> George Owen of Harvard, in Treat's oninion was the hardest man Princeton had to stop. "Yale's defense was the toughest we

met and Chicago's offense seemed to be the best" he added. "We knew before the Harvard game "We had great respect for the Harvard system but our coaches showed

us how it could be beaten. We fellowed their instructions and we won.
"Our advance instructions were to watch for certain plays from certain men. We generally had them diagnos-

ed correctly. For instance if Owen was back we knew that either a smash off tackle or psychological play, developed with deception, was coming. If Buell was back, it was either a drop kick or a forward pass to either Owen or Chapin. If it was Gherke back, it was

a punt and nothing else.
When Chapin fell back we anticipated a run around end. We took more chances at Chicago than in any other game. I was a case of western football by an eastern team against team against a western team. When Gray scored that touchdown t seemed as though we all just naturally knew that we were good and that's why we were so successful, I guess. John Thomas of Chicago is

whale of a player but if you want my opinion. George Owen is better."

TO HIT LAST YEAR. SAYS BABE BUTH

Russian State Is Very Poor

(BY F. A. MCKENZIE)
MOSCOW, Dec. 28—The impression received from reports made by the department heads of the state to the All-Russian Congress is one of appailing proverty. D. Rokelniky, the new commissar of finance, in a frank statement declared that between January and September this year the national revenue from juxation was the population. He declared that it was impossible to present a hudget, but recommended drastic but gradual changes in the system of taxation. Taxation now yields only one-twentieth as much as a did before

Commisser Lunarcharsky a moving account of the decline in education due solely to the lack of means with which to keep the schools going and pay the teachers. Last year, he said, there were \$2,397 public schools with 6,860,900 pupils. in October, this year, there were only 55,000 schools with 4,750,000 pupils. The number of schools now is actually less than it was before the war, although the number of pupils have increased. M. Lunacharsky drew a tragic picture of the men and women teachers, many of whom have been reduced to beggery and are dying prematurely from want. Others, terribly ill from shortage of food, have been driven to suicide.

In view of the salaries paid to information. teachers, said the commissar, it was not astonishing that they left their schools in masses. He pointed out that taking 100 as the minimum for existence, the rates actually received were woodworkers, 81 per cent; paper-makers, 61 per cent: sugar workers, 66 per cent; employes in chemical industry, 47 per cent; employes in the metal industries, 46 per cent, and teachers, 12 per cent,

BUSINESS MEN IN GERMANY ASK INQUIRY

WASHINGTON, Dec. 28 .- Further aspects of the move for an American commission to inquire into Germany's capacity to pay reparations came to light today when the Chariber of Commerce of the United States made public a definite request from Ger-man business men that such a com-

infesion be appointed. The request was request was transmitted through the German Industrie- undhandelistar, a national organization representing German husiness interests. In reply the Chamber of Commerce expressed gratification at the confidence shown in American business leadership but deferred a definite decision pending discussion of the reparations question by the council of allied premiers at their meeting January 2.

The correspondence as made public contains no reference to previous dis-cussion of the project, although it is known that in a less formal way the American commission plan has been under consideration in Germany, the United States and other countries for several weeks. Only one allusion is made to the fact that the plan has been discussed also with officials of the interested governments, ablegram of the German industrieund-handelstag saying merely that the German government will be pleased to welcome such a commission" and open to it all sources of

CROWDING THE STORES KANSAS CITY. Dec. 28.—Post Christmas sales are crowding the Kansas City retail stores and country buying is better than it has been for some time, according to local whole-

Hardware and electrical goods are especially active. Automobile sales are not particularly active, but the de-mand for tires and accessories is holding up well.

The warm weather has started hens to laying and has brought down the price of eggs one to three cents & dozen, according to grade.

A Great Figure—A Great Epoch—A Great Story

"Captain Blood"

BY RAFAEL SABATINI Writer of "Scaramouche"

In reading of how Peter Blood, convicted of high treason and sentenced to slavery in Barbados, his escape on a pirate ship, and of his sea fights and desperate adventures as a freebooter, the most seasoned novel reader will feel a thrill he has not experienced since boyhood dreams of buccaneers and pirate ships, Spanish gold and pieces of

For Regal Bride

arations have been made for the wedding of the Regent and Princess Nagako, which has been fixed for the autumn of 1923. Resides material for the robes, accessories for the coremonies and furniture also have been ordered. Simplicity will be the domlnant feature and eyery object will bear as ornament the chrysanthemum

message to the prince the day before the wedding, a blask lacquer box tied with red silken cords will be used. The message itself will be written on parchment. The second ceremony is that of the Grinking of three times three of the wedding sake cups. This simple exchange constitutes for all the people of Japan the marriage proper. The sake pots will be of silver, the cups and dishes of specially prepared earthen ware an dthe silver chop-sticks inlaid with gold. The boxes for the chop-sticks of the

third ceremony, will be lacquer with a design of swallows and clams. They

fered widely in their opinion of many navy required by the Washington treaof the pieces brought into court. The favorite system of the crooked dealer is to obtain a genuine antique of a certain period, for instance a chair. This he will take apart, and reconstruct a number of new chairs of the design, each one containing a section fithe original chair. It was shown dring the hearing that an antique bedstead had been taken to pieces, and that the twelve duplicates fash ened in accordance with this system as sold for \$5,000 each.

In faking china the work is more ifficult. Here the dealer must make conforming minutely to the riginal and bearing the makers It is estimated that sixty percent.

MEETING IS POSTPONED ball Federation, which is to be held in Pittsburgh, has been postponed from January 8 until January 27, it was announced by Secretary Fred W. Thomas today. The change in dates were made at the request of Raiph S. Davis, president of the Pittsburgh Association, which will be host to the delegates.
